Delhi Public School Ghaziabad Vasundhara

High School Diploma
2021

SKILLS

UI/UX Design - Canva, Figma, Adobe Express

Graphic Design - Adobe Photoshop, Adobe Illustrator

Web Development - Flutter, React, html, CSS, MySQL, Node, Postman

Languages - C, C++, Javascript

ABOUT ME

With a strong background in frontend web development and proficiency in professional design software, I excel at creating visually appealing and user-friendly interfaces. I'm passionate about crafting seamless digital experiences that engage and captivate users. Collaborative by nature, I effectively communicate and collaborate with cross-functional teams to bring ideas to life. I also have some experience working with decentralized apps and the Ethereum Blockchain.

WORK EXPERIENCE

May 2023 - July 2023
Company: Legal Trust Network

Frontend Developer Intern

- Utilized modern UI/UX principles and best practices to design the website with an appealing and user-friendly interface.
- Employed Flutter, a versatile cross-platform development framework, to implement the website design effectively.
- Facilitated seamless communication and collaboration with all project teams, ensuring efficient progress throughout the development process.
- Conducted thorough debugging of the code to identify and resolve any issues, guaranteeing optimal functionality and performance of the website.
- Leveraged Postman to effectively integrate APIs on the frontend, enabling smooth data interaction and dynamic content display.

December 2023 - Present
Fine Arts and Photography Society

Joint Secretary

November 2022 - February 2023
Backslash Computing Society

Frontend Developer Intern

PROJECTS & HACKATHONS

Elex - Elective Management App (Afourathon-3 2023) - Participation

https://ggbois-one.vercel.app/

The elective subject selection web app named Elex is designed to facilitate the management and selection of elective subjects for students. (React, Firebase, Node, Tailwindcss)

American Express Makeathon 2023 - Participation

Presented the idea on the given problem statement: Implementation of effective and robust security system for ATM systems with OTP verification

E-Commerce CRUD web application

Built an e-commerce platform with all the required basic functionalities like purchasing, cart configuration for each user, addition and removal of products by admin. (React, Firebase, Node)
